LOCAL BOARD WILL SUPPORT COLEMAN'S FIELD DAY

At the regular meeting of the Blairmore Board of School Trustees on Friday night last, it was again agreed to support the district school field-day funds to the extent of \$18,000, representing \$1.00 per room. The field-day programme will this year be held at Coleman.

Three applications for positions on the teaching staff were filed for future reference.

Secretary was instructed to acknowledge receipt of Walrond-Raven book cover supply during the past season and to fill a requisition for a similar one for 1929. These covers are found to be very useful in the schools and are supplied free of charge through the Royal Bank of Canada.

Accounts passed included one from E. J. Pozzi for material and construction of two outdoor toilets at the central school grounds, \$176.00.

Report was submitted of unsatisfactory conditions prevailing at the West Ward school, caused by surface water overflowing the septic tank and causing an unpleasant odor. Members Pinkney and Tompkins were appointed a committee to interview the West Canadian Collieries, Limited, with a view to remedying the matter. The building of toilets on a level with the main floor of the school building is believed to be the only remedy.

The Board decided to purchase a No. 6 Autoprint Duplicating machine for school use, at a cost of \$37.50.

Inspectors' reports on the public and high schools were received and filed. According to same, the general standing of the school is far in advance of previous year and one of the best in the inspectorate. The present enrolment was 475.

MEETING OF TOWN COUNCIL

The regular meeting of the Blairmore town council took place on Monday night and was attended by Mayor, Farmer, Councillors Beebe, Morgan, McVey, Sartoris and Ferguson and Secretary Kelly.

The minutes of previous meeting were approved as read and a number of accounts were passed for payment subject to the okeh of committees.

The account of the McLaren Lumber Co., Ltd., for labor in connection with the digging up of a frozen water connection leading to their Victoria Street block, was ordered filed.

A deputation from the local union waited upon the council, asking relief for the families of J. Mackie and F. Johnson. Upon motion, relief to the extent of \$50 was granted to each family. This represents the second grant to the Johnson family, the breadwinner of which has been ill and unable to work for some time.

A report of progress being made in thawing out water mains in certain sections of the town was submitted by Chief Duncan and he was advised to continue the work.

Secretary was instructed to collect rent from the Appleby property, until such time as the amount of taxes due from same was met.

DEATH OF FRANK VEJPRAVA

The death occurred at the Stewart Hospital here yesterday forenoon of Frank Vejprava, after a lingering illness, at the age of fifty-six years.

Mr. Vejprava was a long-time and highly respected resident of Frank and is survived by his widow, one daughter and three sons, two of whom, Tony and Frank, reside in Blairmore.

Funeral takes place from the family residence at Frank at 3 o'clock on Sunday afternoon and the remains will be laid to rest in the Blairmore cemetery.

Fresh eggs, 2 doz \$1.00. Glendale butter, 2 lbs 95c. Tip Top creamery butter, 2 lbs 90c—BURNS & CO.

RED TRAIL TO BE LINKED WITH WIDE SAFE B.C. ROAD

More outlets are to be provided this year for tourists motorizing through southern Alberta and traversing the road running by way of the Crows' Nest Pass. Announcement was made recently that the British Columbia government is to start shortly on the construction of a wide safe road from the Alberta boundary at Crows' Nest westerly to the flats.

Motorists who have travelled over this section of the Red Trail will no doubt rejoice at this announcement as it is one of the most dangerous spots on the whole highway. The new course will follow generally the present road, except at Crows' Nest, where it will pass behind the Canadian Pacific boarding house. This work will improve and make safe the narrow, dangerous section of the main road which has been the scene of several bad accidents, in one of which the driver was killed.

The Alberta government is now building a new road from the boundary to a point near the west end of Crows' Nest Lake and joining the permanent Coleman road, finished two years ago. This route follows in a general way the present road but is entirely new in construction.

The construction of these two pieces of road in British Columbia and Alberta has been delayed a couple of years through a difference of opinion between the two provinces as to the best location. About two years ago, Alberta road engineers made a new road location from the west end of Crows' Nest Lake. This location went to the south of the small lake just east of Crows' Nest and reached the B.C. boundary on the opposite side of the C.P.R. yards to the present road.

The Alberta engineers suggested that B.C. should continue this location past the roundhouse and to the south of the B.C. lake at Crows' Nest, crossing the railway about one mile west of Crows' Nest and connecting there with the present road. This location in B.C. would have been difficult to build and would have cost at least three times as much as at present decided on. It would also have transferred a railway crossing from Alberta to British Columbia.

During the past two years the boards of trade of the Pass towns have urged their respective governments to decide on a final location and get the work done. Last year, a final route was decided on, following nearly the course of the present road. This route will make an excellent road. The British Columbia government will complete the Corbin road this year, starting at the beginning of the construction season—Good Roads Magazine.

FIRST AID WHIST DRIVE AND DANCE A SUCCESS

The whist drive and dance in aid of the Blairmore Local First Aid Association, which was held in the Oddfellows' hall on March 27th, was a very successful affair.

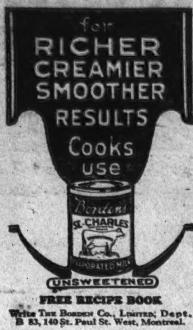

Prizes for the draw were won by the following: 1st, J. Smith; 2nd, Pete Battell; 3rd, Gus Peressin.

The whist prizes were won by: Ladys' first, Mrs. Perry; second, Mrs. F. Mackay; third, Mrs. H. Carmichael. Gents' first, Miss Morrison; second, H. Carmichael; third, J. A. McDonald.

Excellent music was supplied by the Altermatt orchestra for the dance that followed.

The committee wish to thank the ladies who supplied sandwiches and cakes, etc.; the Sister Lodges and the Elks for the use of tables, chairs, cards, etc., and also all other persons who loaned tables and dishes, and to others that assisted to make same a success.

Bible Three Centuries Old

Was Used To Swear In New Vice-President Of United States

A most unusual Bible was used to swear in the new Vice-President of the United States, Chas. Curtis, of Kansas. It is the property of E. M. Gels, of Salina, Kansas, and is 350 years old. The Bible has been in the Gels family at least five generations. It was printed in Cologne, Germany, in 1564, and was copyrighted by Ernest Ferdinand. It is bound in wild boar skin with wooden inner covers. The book is printed in two tones, red and black, in clear faceted type, and contains many woodcut pictures. One scene shows an angel driving the devil out of Paradise. Satan is shown as a large horned dragon. On the frontispiece, which bears the German imperial seal, are depicted a series of scenes, the first being the medieval artist's conception of the fall of man. Eve is shown handing Adam an apple. The second is of an angel driving the two out of the Garden of Eden.

FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and happy, as well as a delicate hearty recommendation from the mother. That is why Baby's Own Tablets are popular. They are made throughout the country not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. The tablets of Baby's Own have proved Baby's Own. Tablets in tablets, with an equal in relieving their little ones of any of the many minor ailments which arise out of a delicate system, and of course Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; they cure colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Toronto, Ont.

Pending the world-wide abolition of slavery and forced labor, victims of the two institutions should at least enjoy the advantages of the eight-hour day, according to the International Labor Bureau at Geneva.

Clad in bright sweaters, knickers, and high boots, with pack sacks slung across their backs, Hilda Weston and Barbara Thorning, two English girls, have set out from Toronto on the first leg of a journey to Vancouver, B.C.

Negotiating a distance equal to that around the world at the equator, 25,000 miles, a motor cycle which carried eight British drivers in relays for 23 days and 22 nights covered the entire distance, 25,190 miles, in 554 hours 8 minutes.

The Manitoba Department of Education has agreed to form a circulating library of professional books for school teachers. By paying the postage on books all teachers in the province will be able to secure this aid in their profession.

Miss Ellen Hennemond, B.S., of Mount Allison University, Sackville, N.B., won the travelling scholarship awarded annually by the Canadian Federation of University Women for 1929-30. Miss Hennemond is dean of women, and instructor in the department of French, at Mount Allison.

E. W. Beatty, president of the Canadian Pacific Railways, stated that the Duke of Gloucester, third son of the King, would open the new railway hotel being completed in Toronto, provided he could be in Toronto at that time. The Duke of Gloucester will arrive at Vancouver on June 1 to start a tour.

New Idea In Surgery

Dr. Karl Hutter, of Vienna, reveals a method of performing a bloodless surgical operation with a needle shaped electrode, which coagulates and removes diseased tissue without the use of a knife. It has been used so far to remove warts, birthmarks, moles, and the like, but can be used for more serious operations, Hutter said.

Edmonton's School Enrollment

Edmonton's school enrollment is 14,600, which is more than double the city's entire population twenty-five years ago.

Workmen's Wife: "Poor dear! I worked 'tself to death! Bein' so short-sighted 'e wasn't able to see when the foreman wasn't lookin'!"

COULD NOT DO MUCH WORK

Eczema on Face, Neck and Hands. Cuticura Heals.

"Eczema broke out in pimples all over my face, neck, arms and hands. I had to keep my sleeves rolled up so that the heat from the stove did not get on my arms. I was compelled to go around on account of the eruptions and the irritation was terrible. I could not do much work, and the irritation was constant."

"I sent for a free sample of Cuticura Soap and Ointment and it gave relief. I purchased more and in about two weeks the eczema was gone." (Signed) Percival S. Pinder, R.R. 6, Lindsay, Ont., Aug. 22, 1928.

Mild Weather Thaws Igloos

Eskimos Are Made Homeless By Action of the Sun

It might be expected that winter would be winter at Tavane Bay. For Tavane Bay is 250 miles north of Fort Churchill, where the Hudson Bay Railway, through Manitoba's rich northern mineral fields, will end. But the North has been much maligned. Even the Eskimos will tell you that. As usual, this past winter, the Eskimos of Tavane Bay built their igloos, their little round houses of snow and ice. As usual they were buried now and again by blizzards. But quite out of the usual was the thaw which struck them just after Christmas. The temperature seemed to 21 degrees above zero. The walls of the igloos collapsed, and dozens of families were made homeless. Yet the Eskimos were cheerful. Their attitude was: "Who said our country was frozen up?" And building materials were cheap. As soon as the weather was normal again, they set to work and rebuilt.

Vancouver Grain Port

Going Aboard With Port Development

On a Big Scale

Vancouver is experiencing a movement of grain comparable to that of the rush season. Storage on March 12th was 5,210,193 bushels in Vancouver elevators, with 524 Canadian Pacific cars on spurs, and 663 cars east of Piers. There were 15 boats in port with a united capacity of 2,700,000 bushels. Lake head storage was 72,479,000 bushels in elevators with an additional 8,655,000 in boats for winter storage.

Preparing for continued growth of the westward flow of grain from the Prairie Provinces, Vancouver is going ahead with port development on a big scale.

Cat's-eye is a kind of quartz, much valued as a gem, opalescent, and of various shades.

Empire Marketing Board

Spending Money To Create An Interest In Canadian Farm Products

A bulletin from the Saskatchewan Department of Agriculture draws attention to the fact that Canada is spending every liberally to create an interest in Canadian products in the British Isles and that the Empire Marketing Board, in its turn, is educating the people of the British Isles to purchase Canadian farm products. It points out that the British Empire holds unequalled opportunities to develop markets within their own borders, and urges the farmers of the West to take advantage of the opportunities thus created to establish a market which will be permanent in character and ultimately more profitable.

Predicts Next War Will Be Sudden

English Professor Says Britain Could Not Wait to Consult Dominions

"Great Britain will either lose the next war or lose the Dominions," Brigadier-General J. H. Morgan, K.C., professor of constitutional law at the University of London, said in a lecture at the university.

The next war, he said, might come like a thief in the night and might be fought and won in the course of three weeks. There probably would be no ultimatum to warn of the conflict. No British government, he continued, would be likely to dare to define what was a flagrant violation of right necessitating immediate action without consulting the Dominions.

While the jurists were trying to decide whether there had been a violation of rights and while the parliaments of the Dominions were being summoned, the war would be fought and won, the lecturer declared. The result, he said, would be that if Great Britain stopped to consult the Dominions, she would lose the war, and if she did not consult them, she would lose the Dominions.

Brigadier-General Morgan has had a distinguished military as well as a brilliant academic career.

English Wheat Pool Elevators

Fifty-six elevators will be built at as many different points by the Alberta Wheat Pool this year. This will bring its total up to 374 elevators.

Calgary's Aero Club

Calgary's Aero Club now has 814 members, of which 145 are taking instruction.

About all you can say for yes-men is that they shorten the jury's deliberations.

It May Be Urgent

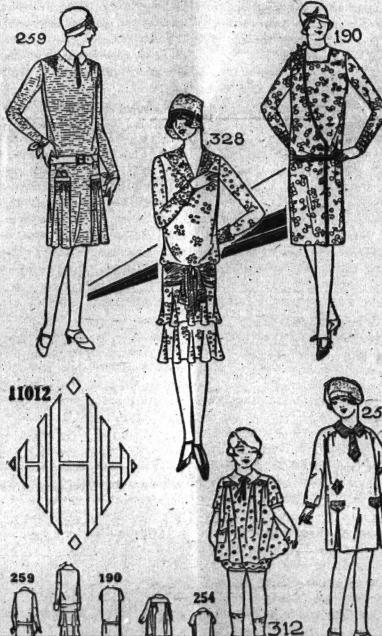

When your Children Cry for It

Castoria is a comfort when Baby is ill. No sooner taken in the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy made for babies. Perfectly safe to give the young infant, you have to give the doctors' word for that! It is a vegetable product and you could use it every day. But if in an emergency the Castoria comes many a night when constipation causes it to relieve—or colic pains—or other suffering. Never be without it; some mothers keep it on extra strength, prepared to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

Escaloped Macaroni with Cheese

1 1/4 cupsful Borden's St. Charles Milk

3 cupsful cooked, drained macaroni cut in two-inch lengths.

1 1/4 cupsful grated American cheese

1/2 tablespoonful flour.

1/2 tablespoonful butter or butter substitute.

1/2 teaspoonful salt, scant.

1/2 teaspoonful pepper.

Few grains paprika.

Make a white sauce of the flour, butter, seasonings and the milk undiluted. Stir in the macaroni. Thoroughly oil a rather shallow baking dish, put in a layer of the macaroni, then in one of the cheese, continuing in this way until all is used and making the last layer one of cheese. Bake in a moderate oven until browned, about thirty-five minutes.

CHAPTER XVII—Continued

Donald turned to Wainwright. "Are you going to let her run? Is it safe for her to enter a race with all these men?"

"I couldn't stop her now, and besides," he added with a touch of pride, "she can hold her own with any of them."

The old trapper made his way to Donald's side. His leathery old face, with its multitudinous wrinkles, wore a perturbed expression. "That fellow Lafonte is cutus. He's full of dirty tricks; 'taint safe for Connie to ride."

Donald turned anxiously to Wainwright.

Connie's father shook his head. "I am afraid it is too late now." Then in a lower voice he added: "You must know the reason for her entering this race."

Donald looked puzzled for a instant. Suddenly it dawned on him. "The curse!"

Wainwright nodded. "It would break her heart if I forbade her to ride, now that she has gone this far. She must have decided suddenly, as she never mentioned it to me."

The Rennie Company had put up a purse of two hundred and fifty dollars. There was to be a collection taken after the race to add to this purse.

The horses trotted down the course. Connie's was rearing and prancing, and it was with difficulty that she managed to hold him to the others. She leaned forward to whisper words of "quelling" in this twisting race. Down the course they came. They were in nice alignment as they passed the judges' stand.

"Go!"

Connie on her spotted cayuse showed a bright splash of colour in the midst of her darker competitors.

Lafonte's dark face lighted with a savage gleam as he swung his horse to the inside or "pole."

Running neck and neck with him was his hated rival, Paul John, leaning low on his horse's neck and shouting unintelligibly in Chinook. Connie was with the stragglers five lengths in the rear. This was new to Pegasus, and he was bewildered by the crowding horses about him. As they turned the corner of the course, Lafonte's horse stumbled, and before he righted Paul John had slipped into the lead. Cursing wildly, Lafonte settled himself in the saddle, his horse's head at the flank of his rival.

Hundreds of times Pegasus had travelled this field with Connie clinging to his back, slowing up for shrubs and trees and making sudden

bursts of speed in the open. That had been vastly different to being surrounded by running horses and listening to the wild cries of their riders and the roaring of the excited crowd.

At the moment Lafonte lost the point of vantage to his rival, Connie leaned forward and emitted a peculiar clucking sound at the same time striking her moccashed feet into the horse's sides. Pegasus' ears twitched back at the sound of the voice he loved. "Now I know what you want," he seemed to say, "his heart is fit to be watched out and his body lowered until it appears to the spectators as though he were just skimming the earth. He moved with a springy stride, the muscles of his sinewy frame working with a sliding movement beneath the glossy skin. Gradually he drew away from the horses travelling with him. Foot by foot he crawled upon the leaders.

The party in the "judges" stand came to their feet to shout approval. The girls were cheering wildly for Connie as she crept nearer the front.

Donald was leaning forward with flushed face, his eyes glued to the spotted cayuse, a deep admiration in his heart for the intrepid little rider.

Little Andy jumped on the rail. "Strike me pink!" he yelled, "Look at that one run! I don't want to lose! I've got to win! Go! Go!"

She was sobbing hysterically, and her small hands were patting the horse's neck.

Pegasus had never heard of supplication in the sweet voice of his mistress before. Nobby he responded to the call. She felt his body lower under her as he sat himself to the herculean task of overcoming his rival's enormous lead.

Lafonte was using the whip. Paul John, hanging so persistently to his flank, angered him. They thundered across the corduroy, and at the sound of Pegasus' hoofs on the cedar pines Lafonte turned to glance behind. A look of astonishment crossed his face as he saw the golden-hued rider so close. With a curse he struck his horse a brutal blow that caused the animal to lose its stride momentarily and fall back in line with Paul John.

Slowly, but surely, Connie's steed cayuse was closing the gap between himself and the two leaders, sweeping along at a terrific pace, his body and limbs moving with the rhythmic grace of a thoroughbred. Connie was leaning so low that the heavy white mane of her horse was brushing her face. Her hair was streaming in the wind like fine spun gold. The party in the "judges" stand rushed to the railing, leaned anxiously forward to get a glimpse of the running horses as they turned the corner, and cheered louder as the three riders thundered over the timber bridge and came toward the finishing line. Connie was at Lafonte's flank now.

Pegasus's remarkable speed fanned the spectators' excitement to a fever heat. Andy had done so much shouting that his voice was reduced to a whisper. Standing on the top rail, his arms waving, he was shouting huskily, "Come on, Connie! Come on, Connie!"

Donald's dark eyes were glowing as he watched the slender figure clinging to the flying horse's bare back. "What a pity if she loses," he said under his breath. Leaping to the rail, he joined in the shouts of encouragement to the straining Connie.

With one hundred yards to go, Connie uttered one last appeal to her dying steed. Above the drumming of hoofs the spectators heard her voice ringing in pulsating enthusiasm. "Now, Paul John! Go! Go!"

With nostrils distended, his breath coming in choking gasps, his eyes bulging, and the voice of his adored mistress ringing in his ears, the gallant animal with a burst of speed that made the onlookers marvel, ranged himself alongside his labouring rivals.

Ten yards from the finish—five yards—they were neck and neck. Then, summoning his last ounce of strength, Pegasus leaped forward as though he would annihilate time and distance. With eyes nearly blinded with dirt tears and the roaring air,

tack a step as if struck a sudden blow, his eyes wide and staring. Andy's head fell forward, and he groaned aloud. Janet covered her face with her hands and sat down weakly.

Donald leaned from the judges' stand, his face pale as death. A vision of Connie's broken body came before his eyes. "Oh, God!" he cried aloud in a voice vibrant with pain. He covered his eyes as though in dread of looking at the spot where she had fallen.

A shout came from the crowd—then a cheer that seemed to rock the earth. "Look! look!" they shouted.

Donald's heart was beating tumultuously. Could he believe his eyes? Connie was standing upright. She appeared to sway slightly; then, like a flash, she was at her horse's head.

Trembling and snorting, she Pegasus came to his feet. With a bound she was on her back and seized the reins. Pegasus reared like a stag and was down the course at the tall end of the race.

As Connie passed the judges' stand she was well up with the tail-riders and galloping steadily. Her face was pale and tense. A smear of red showed on her arm, and a little stream of blood trickled down her forehead from the wound invisible in the thickness of her hair.

The crowd became suddenly quiet as Connie thundered past—a silent tribute to her glorious pluck. But as she crept toward her original position they roared their applause. Pegasus was showing an endurance and speed that had never been equalled in all of that district. As they turned to come down the home-stretch Connie was a good fifty yards behind the leaders. Lafonte's horse was again in the lead by a few feet.

The shock and strain were beginning to tell on Connie. She leaned forward with a pained trembling and cried: "Oh, Peggy! Why Peggy! Please! Please! I don't want to lose! I've got to win! Go! Go!"

She was sobbing hysterically, and her small hands were patting the horse's neck.

Pegasus had never heard of supplication in the sweet voice of his mistress before. Nobby he responded to the call. She felt his body lower under her as he sat himself to the herculean task of overcoming his rival's enormous lead.

Lafonte was using the whip. Paul John, hanging so persistently to his flank, angered him. They thundered across the corduroy, and at the sound of Pegasus' hoofs on the cedar pines Lafonte turned to glance behind.

A look of astonishment crossed his face as he saw the golden-hued rider so close.

With a curse he struck his horse a brutal blow that caused the animal to lose its stride momentarily and fall back in line with Paul John.

Slowly, but surely, Connie's steed cayuse was closing the gap between himself and the two leaders, sweeping along at a terrific pace, his body and limbs moving with the rhythmic grace of a thoroughbred. Connie was leaning so low that the heavy white mane of her horse was brushing her face. Her hair was streaming in the wind like fine spun gold.

The party in the "judges" stand rushed to the railing, leaned anxiously forward to get a glimpse of the running horses as they turned the corner, and cheered louder as the three riders thundered over the timber bridge and came toward the finishing line. Connie was at Lafonte's flank now.

Pegasus's remarkable speed fanned the spectators' excitement to a fever heat. Andy had done so much shouting that his voice was reduced to a whisper. Standing on the top rail, his arms waving, he was shouting huskily, "Come on, Connie! Come on, Connie!"

Donald's dark eyes were glowing as he watched the slender figure clinging to the flying horse's bare back.

"What a pity if she loses," he said under his breath. Leaping to the rail, he joined in the shouts of encouragement to the straining Connie.

With one hundred yards to go, Connie uttered one last appeal to her dying steed. Above the drumming of hoofs the spectators heard her voice ringing in pulsating enthusiasm. "Now, Paul John! Go! Go!"

With nostrils distended, his breath coming in choking gasps, his eyes bulging, and the voice of his adored mistress ringing in his ears, the gallant animal with a burst of speed that made the onlookers marvel, ranged himself alongside his labouring rivals.

Ten yards from the finish—five yards—they were neck and neck. Then, summoning his last ounce of strength, Pegasus leaped forward as though he would annihilate time and distance. With eyes nearly blinded with dirt tears and the roaring air,

CROUP

VICKS VAPORUB
Over 21 Million Jars Used Yearly

Connie saw Pegasus hurl himself past the winning post—a winner by half a length!

The ear-splitting roar that went up from the race-mad crowd must have caused the marmots on the slides near the distant glaciers to seek their holes in terror. A flock of mallard ducks, which had floated peacefully through the air, the noise of the race having frightened the day's commotion, rose with frightened cries to seek a more secluded spot in which to finish their afternoon's siesta.

The crowd had seemingly gone mad. The atmosphere pulsated with a wild tumult of sound. Horses were thrown in air and throats were strained with shouting.

Donald found himself with his arms about Andy, dancing and cheering in a frenzy of joy.

Airplane Perfection

Almost Complete Extinction Of Mechanical Error In Construction

The human factor is now of prime mount importance in aviation in all its branches in Canada, according to officials of the government who point to the almost complete extinction of mechanical error in the construction of aircraft in the Dominion during the past year.

In the earlier days of aviation in Canada frequent accidents were attributed to engine failure, faulty construction and defective parts. Last year only one airplane accident could be blamed in anyway on a defect in either machine or engine.

"It is now time for our pilots to devote themselves most earnestly to perfecting their flying," an official said. "If the personnel operating aircraft do their part as the air engineers have already done theirs, we will rarely hear of aircraft accidents.

Hardly Likely

A young man was being questioned by an insurance official about his family's health. He was asked: "Of what did your grandfather die?"

The applicant hesitated a few moments, and then stammered out:

"I'm not sure, but I think he died in infancy."

Minard's Liniment for the Grippe and Flu

"Jack wanted to know if I believed in clefts."

"That was rather a leading question. What did you say?"

"I told him I wouldn't even let my imagination run away with me."

More than 90,000,000 incandescent lamps were made in Germany in the past 12 months.

Tribe of American Indians in Siberia

Soviet Officials Hope to Save Them From Extinction

Efforts are being made by the authorities to save from extinction a nomadic tribe of "American Indians" in Siberia which has already dwindled to 40 persons.

The tribe, known as Karagas, was discovered some years ago in the Turun district of Siberia. In appearance, language, and customs they resemble so closely the Red Indians of North America that leading Russian anthropologists were convinced of their American origin.

A recent investigator reports that the tribe has such a high death rate that it has only a few more generations of life. The government has therefore decided to make a large tract where no other tribe will be permitted to hunt to their hunting grounds.

Donald found himself with his arms about Andy, dancing and cheering in a frenzy of joy.

Millions For Roads

British Columbia Has a Very Ambitious Programmes For This Year

This year's program of road construction in the province of British Columbia calls for an expenditure of \$7,100,000. A further sum of \$2,500,000 is to be spent for maintenance of highways and roads, and \$1,000,000 has been voted by the provincial government for the construction, reconstruction and permanent improvement of trails and bridges required as access to the more important mineral areas within the province.

WINDOLITE

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and pain.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by placing Windolite in windows you receive vital health-giving rays. Therefore, the invention of Windolite has completely satisfied the long-felt want of an absolute substitute for glass, that it freely admits the Ultra-Violet rays, and that it uses has a most beneficial effect on the growth and development of plants and animals and on the health of cattle, for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of Windolite has during the six years since its introduction revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent sunlight. It makes light but strong windows for cattle sheds, dairy barns, stables, schools, factories, hospitals, laboratories, botanic gardens, greenhouses, etc. It will not crack or chip, cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in widths of 36 inches only. A square yard of WINDOLITE weighs 16 oz., while a square yard of ordinary glass weighs about 135 to 120 oz. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, t.o.b., Toronto.

FLU Germs Breed In the Throat.

Flu: Appear As A Common Cold, But Gain Tremendous Headway
In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight mate "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilene. Half a teaspoonful of Nervilene in water makes a most efficient gargle. The germ-killing properties of Nervilene quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilene. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilene and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

MUSICAL FESTIVAL WINNERS

As promised in our issue of last week, we this week publish a complete list of results in the fifth annual Crown Nest Pass Musical Festival held in Blairstown on Easter Monday, Tuesday and Wednesday. Prizes to the winners were distributed at the close of the festival by President L. L. Morgan, assisted by Rev. W. T. Young, Mrs. J. H. Farmer, Mrs. D. G. Mackenzie, Secretary Frank J. Smith and others. There were 192 entries, of which 169 competed. The results were as follows:

Piano, Grade I, Junior (under 10 years)—1st, Lorna Hale, 176; 2nd, Freda Antrobus, 168. Hilda Padgett 156. Conrad Schoening 152. Frank Lamley 152. Dorothy Costick 150. First and second prize medals donated by Mr. and Mrs. Jack Cox, Colebank.

Violin, Grade I, Junior (under 12 years)—1st, Jack Bundy, 171; 2nd, Edna Evans, 168. John Fraser 166. Mamie Hamilton 162. Peter Lazaruk 158. Leonard Adlam 151. Clifford Chappell 157. Kenneth Thornton 144. First and second prize medals donated by Mr. A. E. Ferguson.

Piano, Grade I, Senior (over 16 years)—1st, Albert Thompson, 165. Yvonne Harrison 153. Prize medal donated by Mr. S. Knapman.

Vocal (under 10 years)—1st, Marjorie Key, 85; 2nd, Freda Antrobus, 88. Clare Bundy 75. First and second prize medals donated by Mr. R. O. Allison, Pincher Creek.

Violin, Grade I, Senior (over 12 years)—1st, Jean Cruckshank, 162. Robert Evans, 159. Donald Thornton 152. Emma White 158. First and second prize medals donated by Greenhill Temple No. 10, Python Sisters.

Piano, Grade II, Senior (over 12 years)—1st, Doreen Chappell, 184; 2nd tie between Doris Hale and Grace Wheatcroft, 183. Marian McDonald 176. Yvonne Ouellette 170. William Burrows 162. First and second prize medals donated by Mr. G. McBurney and Mr. R. S. Green.

Violin, Grade III, Junior (under 12 years)—1st, Ernest Crilland, 166; 2nd, James Marshall, 165. Albert Colclough 164. Jessie Makin 158. Catherine Rose 151. First and second prize medals donated by Mr. J. R. Smith and Mr. J. A. McLeod.

Vocal (under 14 years)—1st, Verda Leigh, 82; 2nd, Grace Wheatcroft 81. Yvonne Ouellette 80. Lorraine Spedding 79. First and second prize medals donated by Mr. W. Goddard.

Violin, Grade II, Junior (under 14 years)—1st, Evan Gushul, 176; 2nd, Jean Cruckshank, 171. Sylvia Evans 161; Peter Lazaruk 159. Kenneth Owen 160. Sandy McEwen 155. Martha Dinsberger 157. First and second prize medals donated by Blairstown B. P. O. Elks.

Vocal (under 16 years)—1st, Ketta Tustain, 82; 2nd, Elaine Pritch, 80. First and second prize medals donated by Greenhill Temple No. 10, Python Sisters.

Violin, Junior Quartet—1st, Blairstown (Clifford Chappell, Mamie Hamilton, Evan Gushul and George Kerr), 85; 2nd, Hillcrest (Edna Evans, Robert Evans, Jessie Evans and Sylvia Evans), 88. Hillcrest "D" 78. Pincher Creek "A" 71. First four first prize medals donated by Crows' Nest Chapter L.O.D.E., and four second prize medals donated by Mrs. Frank J. Smith.

Junior Orchestra—1st, Hillcrest, 88. Prize, the Moser Shield.

Piano, Open Junior (under 17 yrs.)—1st, Evelyn Oliver, 180. First prize medal donated by Mr. George Patterson.

Vocal, Open Bass—1st, A. B. McMurdo, 172. First prize medal donated by Mr. O. E. S. Whiteside.

Violin, Grade IV—1st, John Stobbs, 179; 2nd, Laura Freebairn, 169. Celia Johnson 167. Florence North 167. First and second prize medals donated by Blairstown B. P. O. Elks.

Brass Quartet—1st, Goodwin Brothers, 88. Four first prize medals donated by the Blairstown Teachers and Mr. C. J. Tompkins.

Open Soprano—1st, Mrs. J. A.

bridge, 168; 2nd, Miss Jessie Balle, 60. Miss Lyons 142. Mrs. H. Parsons 138. First and second prize medals donated by Mr. O. E. S. Whiteside, Piano Duet, Junior (under 16 yrs.)—1st, Frances Linville and Beatrice Trono, 86; 2nd, Mae Allison and Edna McLaughlin, 83. Eunice Shayler and Lorraine Spedding 78. Agnes Cotte and Ketta Tustain 70. Two first and two second prize medals donated by Mr. R. O. Allison and Mr. L. P. Robert.

Violin, Grade V—1st, Verda Leigh, 86. First prize medal donated by Mr. O. E. S. Whiteside.

Junior Church Choir—1st, Pincher Creek United Church, 172. Macleod United Church 152. Prize, Morgan cup.

Piano, Grade II, Junior (under 12 years)—1st, Adrienne Pelleter, 80; 2nd, Wilma Wheatcroft, 78. Marion Morrison 75. Margaret McKenzie 73. First and second prize medals donated by Mr. E. L. Warburton.

Violin, Grade II, Senior (over 14 years)—1st, John Freebairn, 162; 2nd, Roy Upton, 161. William Macie 156. Arnold Baratelli 156. James Patterson 140. First and second prize medals donated by Mr. Stirton Marshall.

Vocal (under 12 years)—1st, Margaret Murray, 164; 2nd, Wilma Wheatcroft 160. Eva Erikson, 146. First and second prize medals donated by Mr. A. E. Ferguson.

Piano, Grade III, Junior (under 14 years)—1st, Jean Cruckshank, 172; 2nd, Frances Linville, 168. Violet Bradley, 151. Kathleen Costick 156. Margaret Hoare 154. Phyllis Hoare 152. Leona McDonald 156. Eunice Shayler 154. First and second prize medals donated by Mr. P. Chardon.

Violin, Grade III, Senior (over 15 years)—1st, Dennis McLaughery, 164; 2nd, Rinaldo D'Amico, 162. John Colclough 156. Kathleen Collins 160. Robert Cruckshank 158. Claude Hammond 161. First and second prize medals donated by Greenhill Temple, Python Sisters.

Violin, Grade III, Senior (over 15 years)—1st, Dennis McLaughery, 164; 2nd, Rinaldo D'Amico, 162. First prize medal donated by Mr. J. Angus McDonald.

Violin Quartet, Senior—1st, Hillcrest (Rinaldo D'Amico, Catherine Rose, Harry Stobbs and John Stobbs), 82. Kathleen Collins and Laura Freebairn 80. Two first prize medals donated by Mr. A. M. Morrison.

Piano, Sight Reading—1st, tie between Beatrice Trono and Frances Soar, 80. Mae Allison 70. Doreen Jackson 65. Frances Linville 68. Edna McLaughlin 60. First prize, silver medal.

Open Baritone—1st, A. B. McMurdo, 164. A. J. Phillips 162. First prize medal donated by Mr. J. Angus McDonald.

Violin Quartet, Senior—1st, Hillcrest (Rinaldo D'Amico, Catherine Rose, Harry Stobbs and John Stobbs), 82. Pincher Creek 80. Four first prize medals donated by Crows' Nest Chapter, L.O.D.E.

Violin Open Senior (over 17 yrs.)—1st, Joe Jaske, 178. Prize medal donated by Mr. F. F. Thompson.

Tenor and Baritone Duet—1st, A. Colclough and A. B. McMurdo, 78. Two first prize medals donated by Mr. Dennis McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. Edna McLaughlin 164. Dorothy Oliver 161. Lorraine Spedding 154. First and second prize medals donated by Mr. G. McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. Edna McLaughlin 164. Dorothy Oliver 161. Lorraine Spedding 154. First and second prize medals donated by Mr. G. McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. Edna McLaughlin 164. Dorothy Oliver 161. Lorraine Spedding 154. First and second prize medals donated by Mr. G. McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. Edna McLaughlin 164. Dorothy Oliver 161. Lorraine Spedding 154. First and second prize medals donated by Mr. G. McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. Edna McLaughlin 164. Dorothy Oliver 161. Lorraine Spedding 154. First and second prize medals donated by Mr. G. McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. Edna McLaughlin 164. Dorothy Oliver 161. Lorraine Spedding 154. First and second prize medals donated by Mr. G. McDonald and Mr. Fred Padgett.

Piano, Grade IV—1st, Mae Allison, 168; 2nd, Beatrice Trono, 165. Dorothy Barries 162. Erma Bogus 164. Agnes Cotte 156. Bessie Hamilton 162. Leona McDonald 161. Grace 142, Marie Lamley 146. BLAIRMORE PUBLIC LIBRARY

We acknowledge forty-one volumes from Mr. Lynch-Staunton, thirty-six from Mr. McVey, eleven more from Miss Charlton and twenty new volumes from Mr. Vissaci; a total acknowledgment this week of 108 volumes.

Some of these books need a little repairing, but supplies for this purpose have been purchased and we hope to have them on the shelves in a few days.

There are now 1153 volumes on the shelves ready for your use.

James Tutt, of the C.P.R. Hillcrest Station staff, left last week to spend a three months' vacation in England.

Lives of great men all remind us,

As their pages o'er we turn,
That we're apt to leave behind us
Letters that we ought to burn.

She: "I didn't think you'd break
your engagement with Eva; you said
she was your dream girl."

He: "She was—but I woke up."

Magistrate: "Are you sure you understand the nature of an oath?"

Youth (scared stiff): "Sure! I ain't I yer daddy down at the linka!"

Young Doctor: "Just think, six of my patients recovered this week!"

Old Doctor: "Serves you right. You spend too much time at the club!"

Angus Morrison, secretary of the Alberta end of the U. M. W. A., is in this district, accompanied by Mr. Robert Livett, international board member.

Children, don't forget to come to see "Lilac Time." The first hundred kiddies will get a beautiful airplane free at the Orpheum on Saturday matinee at 2 p.m.

"Aren't you afraid the birds will eat your seeds? You ought to put up a scarecrow."

"Oh, it's not worth it. There's always one of us in the garden."

Mr. Marshall, representing the Chrysler Motors, was in town from Windsor, Ontario, on Tuesday, conferring with Mr. Charles Sartoris, their local representative.

Tony Pondelick, senior, has secured the agency for the Nu-Way Optical Company, of Toronto, and is prepared to make eye tests and fit glasses at the low price of \$3.98.

George Sangster is due to arrive this week from a several months' sojourn at his old home in Bonnie Scotland. We understand that George will again make Blairstown his home.

Papa Abercrombie: "You young whipper-snappers of today expect too much. Do you know what I was getting when I married your mother?"

Abercrombie, Jr.: "No; and I'll bet she didn't, either!"

The Sunday school girls of a certain church put flowers in front of the pulpit each Sunday. One was asked by a strange minister who had been preaching that day, what they did with the flowers after the service. "Oh, we take them to people who are sick after the ceremony," was the innocent reply.

—o—

The interests of the Prince of Wales in Canadian Railways was demonstrated recently when, following his speech at Mansion House, in London, he visited the British Indian Museum, and then spent time in examining the exhibits of the Canadian Pacific Railway. He took great interest in the trading trains, models of locomotives, and the artistic nature of the round the world cruise working model. Her Majesty Queen Elizabeth and George passed along the same gang way and showed great interest in the display.

One of the most colourful and interesting events of the winter season in the west is scheduled to take place in Blairstown on May 11, next when the Great-West Canadian Folk-lore, Folkdance, and Handicraft Festival will be held. The exhibition, an Hellenic Review, featuring nationalities will be represented in the musical and dance groups, and in the exhibits of handicrafts, and a number of artists from the east will be present. The concert will be an evening of entertainment, featuring the Canadian Guards, the Royal Guards, and the Royal Canadian Guards, and the Royal Canadian Mounted Police.

Blairmore Lodge No. 15, B. P. O. Elks

Present the Musical Comedy
"The Beauty Shop"
BLAIRMORE OPERA HOUSE

Thurs., Fri. and Sat., April 11, 12 and 13

Book by Channing Pollock. Music by Harold Orlich and Chas. Geibert

Direction of C. H. Lewis

"THE BEAUTY SHOP" was written by Channing Pollock, author of many stage successes, including "The Sign on the Door," "The Red Wiggle," "The Fool," "The Merchant of Yonkers," which was first produced in New York City by Geo. M. Cohan in 1914, when it ran for almost two years. It was later produced in London under the title of Mr. Manhattan, when it also enjoyed a long and prosperous run. In presenting this clever piece of entertainment to the public of Blairmore, the Elks' Committee feel they are providing a long-felt want in the local amateur theatre and trust it will receive the hearty support of which it is worthy.

The Cast (As you meet them)

Vivian, Dr. Budd's Secretary	Kathleen Tompkins
Gladys, Custodian of Shop	Millie Pondeleick
Hiram Sharp, Chairman of Committee of Creditors	Harold Finkney
Anna, Ward of Dr. Budd	Lilias Brumfitt

Natalie, Panatella's homely daughter	Gladys Bannan
Spanish Dancer	Chas. B. Howe

Waitresses	Sally Munnoch and Irma Aschacher
Spaniard Singer	Lena Fraser
Mermaid	Leila Johnson
A Sailor	John S. Kerr

THE SOCIETY LADIES—Carlotta Fleming, May A. Kerr, Gladys Bannan, Mabel Neville, Mrs. J. A. Packer and Mrs. H. H. Greshbach.

THE MANICURE GIRLS—Leila Johnson, Lillian Rumsey, Gladys Morgan, Mabel Thompson, Lena Fraser and Freda Smith.

THE HAIR DRESSERS—Ed. Womersley, L. Pozzi, Joe McDougall, H. Harrison, E. M. Neville and S. G. Bannan.

THE BUSINESS MEN—Tom McKay, Alf. McKay, L. W. McDonald, John D. McPhail, William N. Fraser and John S. Kerr.

THE WIVES—Alberta Cartwright, Evelyn Bennett, Betty Thompson, Margaret Wolstenholme, Irene Chappell and Irma Sartoris.

THE BROADWAY GIRLS—Betty Scott, Alberta Cartwright, Hilda Williams, Isabel Gray, Pauline Began, Irma Aschacher, Sally Munnoch, Margaret Grant, Evelyn Bennett, Mary Gray, Betty Thompson, Margaret Wolstenholme, Irene Chappell, Irene Sartoris, Katie Kubic, Lillian McDonald, Evelyn Muska and Margaret Patterson.

THE CREDITORS—Joe McDougall, Jos. Shevels, T. J. Williams, F. C. J. Paul, Robert Collins, J. M. Jenkins and Ed. Womersley.

THE CORSICAN JOHNNIES—Richard Linville, Tom McKay, Alf. McKay, L. W. McDonald, John D. McPhail, Alex. McKay, John S. Kerr and William N. Fraser.

THE SAILORETTES—Betty Scott, Betty Thompson, Irene Sartoris, Evelyn Muska and Gladys Morgan.

Synopsis of Scenes

ACT I.—A modern beauty shop in New York City (or in Blairmore).

It is 11 a.m., July 2nd.

ACT II.—A Corsican Inn, Omessa, Corsica, twelve miles from the port of Ajaccio. The natives are celebrating the Feast Day of "Ceres, Goddess of Peace and Plenty." One month later.

ACT III.—A Corsican Plaza. The following evening.

The Musical Numbers—Act I.

1. "In a Beauty Shop"	Ensemble
2. "I Want to Look Like Mary Garden"	Vivian and Chorus
3. "Come Along"	Phil, Anna, Briggs and Vivian
4. "Saturday Afternoon on Broadway"	Dr. Budd and Chorus
5. "Love's Hesitation"	Anna and Phil
6. "When the Creditors Come to Call"	Budd and Creditors
7. "All Dressed Up and No Place to Go"	Dr. Budd
8. "Finale, "Poor Uncle Gazza"	Ensemble

The Musical Numbers—Act II.

9. "Corsica"	Maldinado, Panatella and Chorus
10. "Carissima"	Dolores
11. "We're Corsican Johnnies, We Are"	The Johnnies
12. "For She Loves All the Boys in the World"	Lola and Johnnies
13. "The Apache Dance"	Lola and Dancer
14. "Twas in September"	Vivian, Briggs and Chorus
15. "But I Love You Just the Same"	Lola, Budd and Briggs
16. "Finale, "Ring Out Bells"	Ensemble

The Musical Numbers—Act III.

17. "The Fishing Fleet is Homeward Bound"	Ensemble
18. "The Tale of the Mermaid"	Mermaid and Chorus
19. "The Sailor's Homecoming"	The Sailorettes
20. "Lola, My Tango Queen"	Spanish Singer and Chorus
21. "We Will Go Back Home"	Ensemble

PRICE CUTTING

"I want some salad," he said.

"What kind, shrimp?" asked the Never did anyone any permanent waiter.

good.

"Don't get funny with me, young Is an admission that the first price man!"

Is unnecessary if your customers are getting a fair deal.

Is a poor way to establish public confidence in your business.

Is easy to start and hard to stop.

Is inefficiency's last resort.

Is the first step toward a receiver-ship.—The Last Word.

A man of diminutive proportions sat down at the restaurant table.

Was created by the death recently of Chief Justice Gordon Hunter.

THE TEARING O' THE GREEN

Now comes the time of the year when the sound of the nibbles is heard in the land, and the wild and untameable divot shakes off its winter underwear and starts prowling around fairways and greens in search of easy victims. How the heart of the golfing fanatic rejoices at the approach of the season when he can once more pander to a depraved and peace-disturbing vice. Forsaking home, business engagements, devotional duties, creditors and blonde stenographers, he hies forth to an expensive, hand-manured sheep pasture, located "far from the madding crowd's ignoble strife." Donning the weird and outlandish garments of his calling and armed with a collection of strange, odd-shaped weapons, he proceeds to carve the hand-kept and segregated sod into varied geometric patterns, diverging occasionally to do a little tunnelling and excavating.

It is an eye-filling and humorous sight to see a middle-aged addict of the game, especially one plentifully endowed with prime leaf lard, "making-ready" to whale the everlasting daylight out of a small whitewashed pill. Weird and peculiar are his postures; strange and inexplicable are his antics, to say nothing of his language, which at all times is loose-jointed, descriptive and saturated with sulphur.

Placing the ball in a defenceless position, and seemingly without the slightest provocation, he attacks it in a ferocious fashion, as though to mar its usefulness forever. The ball eludes its assailant and leaping into the air, dives into the recesses of some convenient wrought-iron shrubbery and disappears from human ken or vision.

When darkness falls he returns to his anxiously waiting family. With a pair of feet that feel like boiled suet puddings, a dose of poison ivy, half an acre of sunburn and a pain in his veriform appendix, he will claim it to be a perfect day. Emotional insanity appears to be on the increase.—"Canadian."

Now comes the supreme test of the game. To successfully track a malignant, demoniac-minded and evil-intended golf ball, calls for woodsy care, very carefully to make it grow.

craft facilities of no mean order. The

successful golfer must possess the unerring scent of a blood-hound, the tenacity of fly-paper, the hopefulness of an old maid, the reasoning of Sherlock Holmes and the ability to look placid and unperturbed whilst red, white and blue anarchy is sweeping through his corpora callosa.

The ball does not always successfully find its pursuers. Cases have been known (principally in Scotland) where a golf ball has been located the same day—but this only after long and arduous searching.

Some attention should be directed to the costumes worn while playing the game. Many weird and outlandish sartorial absurdities are always seen upon the links, and patterns run the gamut through angles, squares, cubist, rail-fence and rattle-snake designs, horse blankets, Scotch plaids and other bewildering arrangements all done—like Joseph's coat of old—in many odd and startling colors.

Too many regard "golf" as a relaxation from business cares, a source of pleasure, an opportunity to temporarily evade bill collectors, or a chance to wear funny clothes; but this is not all of it. To painstakingly search for hours for strayed balls, to dig up acres of sod, to excavate caves and cellars in sand lots, to tramp for hours over hills and hollows beneath a blazing sun, while staggering along under a load of shelf and heavy hardware, calls for stamina, fortitude and endurance.

When darkness falls he returns to his anxiously waiting family. With a pair of feet that feel like boiled suet puddings, a dose of poison ivy, half an acre of sunburn and a pain in his veriform appendix, he will claim it to be a perfect day. Emotional insanity appears to be on the increase.—"Canadian."

You don't have to nurse a grouch very carefully to make it grow.

TEN STINGY MEN

No. 1 took off his cow's bell each night to save the wear on it while the cow was in the lot.

No. 2 stopped his clock on going to bed; because he did not need its service while he slept.

No. 3 used a wart on the back of his neck for a collar button.

No. 4 made his children climb the yard fence to keep from wearing out the hinges on the gate.

No. 5 crossed his bee with lightning bugs so they would gather honey at night.

No. 6 put green goggles on his cows so he could feed them wooden shavings for green grass.

No. 7 put muzzles on his ducks to keep them from drinking too much water.

No. 8 cut off his dog's tail to keep him from swinging it and knocking off his huckleberries.

No. 9 sang through his nose to save wear and tear on his false teeth.

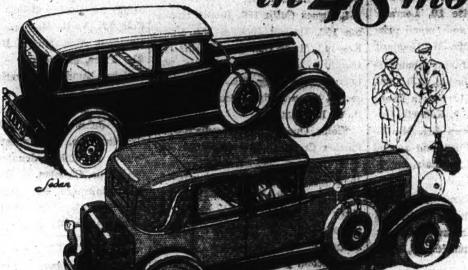

No. 10 would not subscribe for his home paper, but depended on borrowing one from his neighbor.

An Irishman was crossing the ocean for the first time. He had never seen the horizon and was anxious to find out just what it was. About five days out he made a visit to the captain and asked him if he would let him see the horizon. The captain, after examining what it was, gave him the glasses to view it more clearly and jokingly stretched one of his hairs-across the lens. Mike was enthusiastic in his exclamation, "Bar-gor-a, captain, I do see that imaginary line and there is a camel walking across it."

A strange coincidence: When the Trail, "Smoke Eaters" hockey team, visited Winnipeg, many people went to a theatre to see "The Trail of '98" thinking it was the same thing.

STUDEBAKER

Champion performance in 48 models

\$1095 to \$3395

f.o.b. Walkerville

Studebaker alone offers you Champion motor cars, at low prices, in such a varied range of body types—48 models on four great chassis.

Not only in the field of Eight, where Studebaker sells more cars than any other maker on earth, but as a manufacturer of sixes, Studebaker is indeed a builder of Champions. For Studebaker holds, undisputed, every official stock record for endurance and speed.

Here are the Studebaker Champions

THE PRESIDENT EIGHT

World Champion car—holder of 23 national and 11 world records for speed and starting. 30,000 miles in 26,326 minutes. 13 models, priced from \$2,255 to \$2,395.

THE COMMANDER EIGHT

Companion car to the Commander Six, providing the ample sturdiness of eight-cylinder power. 12 models, priced from \$1,960 to \$2,125.

THE DICTATOR

Official record of 5,000 miles is 47:51 minutes, unmatched by any stock car in its class. 5 models, priced from \$1,655 to \$1,755.

(All models f.o.b. Walkerville. Bumper, spare tire and gas tank extra.)

CROWS' NEST PASS MOTORS

Phone 105 Blairmore, Alberta

THE ERSKINE SIX

Worthy successor to the famous Com-

mander which sped 23,000 miles in

one year. A fast record, excelled only

by the President. 6 models, priced

\$1,170 to \$1,960.

No Wonder

A man was one day visiting a lunatic asylum and while walking in the grounds he met a patient to whom he said: "Well, how did you get here?"

The man replied: "Well, sir, you see, I married a widow with a grown-up daughter, and then my father married my wife's daughter, that made my wife the mother-in-law of her father-in-law, and my father my step-son. Then my step-mother, the daughter of my wife, had a son, and is my father's nephew, and I am my

that boy of course, was my brother, because he was my father's son; but he also was my wife's step-son, and therefore, her grand-son, and that made me the grandfather of my step-brother. Then my wife had a son, so my mother-in-law, the step-sister of my son, is also his grandmother, because his step-sister is his wife. I am brother of my own son, who is also the son of my step-grandmother. I am my mother's brother-in-law, my wife is her own child's aunt, my son

own grandfather. That's one reason I am here, sir."—Answers.

A FIRE YEAR

Another Spring is on us and with it the ever present thought of limit holders, protective men, fishermen, hunters and holiday seekers.

Is this a fire year?

Will the spring fire again take a heavy toll of young timber?

Will the favorite trout stream be stripped of its mother watershed and

become a dried-up creek bed? Will the favorite summer resort be overcast by a pall of smoke?

Will the favorite hunting retreat be stripped of the cover and the wild life it supports and protects?

Will there be additional miles of blackened wastes following fire bordering our new tourist route through the forest areas?

Will Canada's potential forest and game wealth be shockingly depleted by forest fires this year, as in 1928?

This is not a dream, my friends. Past history of fire years answers the above queries in the affirmative: Yes. But you and you only, one of the responsible public at whose door ninety per cent of the ashes of timber and wild life may be laid: You alone can make the answers to these queries: No!

Our 6000 Canadian forest fire rangers without your co-operation are helpless. Can they bank on you for the season of 1929—a season that the fire year cycle points to Forest Fire Hazard—Dangerous?

A Good Reason

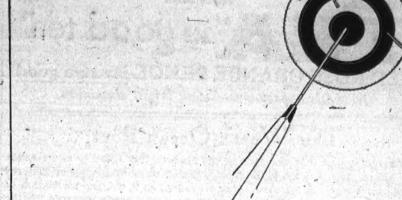

Indignant Parent (7 a.m.): "Young man, what do you mean by bringing my daughter home at this hour?"

Flaming Youth: "Well, I've got to be at work at 8."—Passing Show.

PRESTIGE

THE purchase of an Oldsmobile is in itself a tribute to your individuality . . . indicating an appreciation of the finer points of automobile quality.

For, although the finer Oldsmobile possesses a host of features (mechanical and structural), which distinguish it from all other cars in its price-range, it also possesses a distinction which marks it as one of the world's fine cars, regardless of size or price.

In fact, so pronounced is its air of prestige that thousands of people who have seen it, and perhaps ridden in it, have no idea how astonishingly low is its price.

We will be pleased to show you the many exclusive features of the finer Oldsmobile and to arrange for a trial ride. Then you will realize that no other car so low in price offers such a comprehensive and balanced array of truly fine-car features . . . and that there is a sound basis of value underlying Oldsmobile prestige.

The West's Ocean Port

Announcement that the rails of the Hudson Bay Railway had reached Churchill on Good Friday, is the most welcome news the people of Western Canada have received for some time, heralding, as it did, the realization of a long entertained hope. For many years Western Canada agitated for the building of a railway to the Bay. It was vigorous, even violently, opposed by Eastern Canada interests, and, politically speaking, the voice of the West was weak in comparison to that of the East. The West, however, kept up its campaign of education as to the merits and feasibility of the route, and ultimately all political parties in Canada became committed to the project.

Finally, plans for a Hudson Bay Railway assumed definite shape in 1910, when a branch line of the Canadian Northern was completed from Hudson Bay Junction, Sask., to The Pas, Manitoba, and the building of a Government line from The Pas to Hudson Bay was authorized by Parliament. Work commenced the following year with Churchill as the objective.

Following a change of Administration at Ottawa, Churchill was abandoned as the proposed terminal, and Port Nelson chosen. The location of the railroad was accordingly altered. The right-of-way was cleared and graded to Port Nelson and steel laid, before the end of 1916, as far as Kettle Rapids, 332 miles from The Pas.

Owing to the war and consequent lack of men and steel, operations were suspended and for some years only part of the completed railway was kept in use.

The work thus commenced by the Liberals in 1910 was continued by the Conservatives until war, and the after-war period of financial depression stopped the work. The work, however, had only been carried on in a more or less half-hearted manner with the result that progress was slow, and the country, as a whole, lacked confidence in the undertaking, the East regarding it as a waste of public money and in the nature of a political sop to the West.

With the acceptance by Hon. C. A. Dunning of the portfolio of railways in the Mackenzie King Government, a marked change took place. It is an open secret that Mr. Dunning made the immediate and vigorous construction of the road a condition of his entry into the Government. He frankly told the people of the West that he regarded it as "his Job" to complete the railway in the shortest possible space of time.

The task of reconditioning the roadbed which had fallen into disrepair was begun, and, in view of divergent views which prevailed as to the relative merits of Churchill and Nelson as terminal harbors, Mr. Dunning secured the services of the most eminent British harbor engineer to decide the question. He reported strongly in favor of Churchill, and his report was immediately accepted, and the road again diverted in that direction.

Since then there has been no let-up in construction. It has been pushed forward day and night, in season and out of season, with the gratifying result announced on Good Friday.

In the meantime Mr. Dunning grappled with the problem of building an effective harbor at Churchill and establishing the feasibility of the ocean route through Hudson Strait. Airplane and other surveys, radio, and every modern invention was called into use, and in two years public opinion in the West was not only justified, but the East was largely converted, especially as huge and very valuable mineral discoveries in the northland made accessible by the railway quickly followed.

Although both steel and telegrams have reached Churchill it will require some months yet to fully build the road to make it capable of efficiently handling traffic. There is an enormous amount of work to be done to build marine harbor facilities at Churchill. That work is in progress and being prosecuted with the same vigor as characterized the building of the railway in the last three years. Hundreds of carloads of supplies, material and equipment for the harbor are even now distributed along the railway to be rushed in at once now that the rails have been laid.

It is confidently anticipated that before the end of 1929 freight will be moving steadily from the prairies to the West's own ocean port of Churchill, and Mr. Dunning has already announced that the Crow's Nest Pass schedule of rates-on-grain will apply to the Hudson Bay route.

The new route will, it is believed, effect a veritable revolution in Western transportation. In preparation for it both of our great railway systems have been building north and south lines within recent years, whereas formerly their policy was to so construct lines as to move everything from east to west and west to east.

With the completion of the Hudson Bay Railway one of Canada's ambitions is being realized. It is in these Western Provinces that depth is to be given to the Dominion, something it has lacked since Confederation brought a Dominion into existence consisting of a long narrow strip extending from the Atlantic to the Pacific just north of the International boundary line.

Big Amount For Research

Ontario Government Increasing This Purpose

In conformity with the Ontario Government's offer of \$1,000,000 for dollar's plan of assistance for industrial research in the province of Ontario, a bill has been introduced in the Legislature increasing the contribution of the provincial government to the Ontario Industrial Research Foundation from \$1,000,000, as provided in the 1928 act, to \$2,500,000.

Last year legislation was provided for the subscribing by the Ontario government of \$1,000,000 if the same amount were subscribed by private interests. So enthusiastic was the response that that amount has

been over-subscribed and this amendment provides for its increase to \$2,500,000, to be granted on the same terms.

For years Mother Graves' Worm Exterminator has raised a reliable worm preparation and it always maintains its reputation.

Gold Fish Not So Delicate

Only temporary suspension of the activities of a bowl of gold fish resulted when the temperature dropped to 14 degrees above zero and the fish were encased in a solid cake of ice. They resumed their activity when the ice thawed. The temperature was the lowest in Marshfield at any time in the last twenty-five years.

Average Farm Wages

According to a statement issued by the Department of Trade and Commerce of the Dominion Government, the average farm wages paid in Alberta were \$72 per month, which is the second highest average in Western Canada. British Columbia being rated at \$77 per month.

In England nearly 5,000,000 items of correspondence for places abroad are posted annually with insufficient postage and over \$200,000 a year is collected in surcharges from the addressees.

Armament Reduction

Great Britain Is Lending the World In This Connection

Right Hon. W. G. Bridgeman's speech of the other day, to which we have already referred, was noteworthy, among other things, for how it indicates how the cost of British naval maintenance is being lessened. Before the War, the First Lord of the Admiralty pointed out, Britain had 114 cruisers. Today she has only 52. Before the War the naval estimates amounted to 24 per cent. of the entire national budget. Today they are only 6.8 per cent.

Facts and figures like these speak for themselves. They cannot be given any meaning other than that which they obviously bear. Anglophobes in the United States will probably find them a bitter pill to swallow. But fair-minded Americans will see in them one of the real guarantees of world peace. A nation that is building for war with an eye on imminent hostilities, would not do as Britain has done. Let us leave the world today in the mire for naval disarmament, as she has always done.

A TIRED FEELING

IN SPRINGTIME

Not Sick, But Not Up To The Mark—You Need the Help Of That Sterling Tonic, Dr. Williams' Pink Pills—They Give New Vitality.

With the passing of winter many people feel weak, depressed and easily fatigued. The body becomes tired and often the pulse and blood alone can't swallow. But you prevent this by taking Dr. Williams' Pink Pills.

They are all-round blood builders and nerve tonic but are especially useful in the prevention of rheumatism, aches and pains.

Even those who are not new, rich, red blood and with this new blood returning strength, cheerfulness and good health quickly.

If you are pale, easily tired, or breathless at the least exertion, or your complexion is poor or you are troubled with rheumatism or rheumatism, Williams' Pink Pills are just what you need to put you right.

If you have twinges of rheumatism, are subject to headaches and backaches, if your sleep does not refresh you, or your appetite is poor, you need the treatment Dr. Williams' Pink Pills can give you new life and new blood, new strength and new energy. Dr. Williams' Pink Pills are an all-round blood builder and nerve tonic but are especially useful in the prevention of rheumatism, aches and pains.

Even those who are not new, rich, red blood and with this new blood returning strength, cheerfulness and good health quickly.

WHEAT POOL HISTORY GIVEN TO U. S. SENATORS

Washington.—Not only has the Canada Wheat Pool been of distinct advantage to the wheat farmers of Canada and tended to increase the prices they have obtained for their product, but it has had an influence on the whole wheat market, according to A. J. McPhail, president of the Central Selling Agency for the great three Western Canadian pools, who discussed the subject before the Senate committee on agriculture here.

Mr. McPhail came before the Senate committee by special request of the chairman, Senator McNary. Not only was he warmly thanked by Senator McNary and others of the committee for consenting to be present, but members expressed the view that the information which he set forth to the workings of the Canada Wheat Pool would be of great use in evolving plans in this country for farm relief.

The least interesting phase of the hearing was the suggestion that this country and Canada by co-operating with respect to the marketing of exportable wheat could control the world market to a still greater degree than it has already been influenced by the Canadian Pool.

Senator Brookhart of Iowa, asked a series of questions of Mr. McPhail on this point. While Mr. McPhail made no commitment on the policy of such co-operation, he indicated that the Canadian Pool, working with some similar organization in this country, could have an increased influence on the world market.

Mr. McPhail gave a sketch of the history of the formation of the pools of Manitoba, Saskatchewan and Alberta, and their leading in the formation of central selling agencies. Mr. McPhail said that while the farmers of Western Canada in 1923 and earlier were anxious to have the government continue the wheat board plan, it is now the general feeling of the farmers that the pool has been of the utmost benefit in the creation of a spirit of independence and self-reliance among them as well as increased knowledge of their own business. He declared the success of the pool had been a great incentive to the general co-operative movement in Canada.

"The farmer," he said, "is taking more interest in his own organization. There is a keen individual sense of responsibility for the success of the organization."

He said the pool marketed 52 to 54 per cent. of the wheat of the three provinces and carried on a continuous campaign of education among the farmers in order to increase the membership.

Members of the committee were interested to know that the Pool is financed wholly by the banks and not by the government, and that borrowings sometimes reach \$55,000,000.

British Liberals Start Drive

Four Thousand Speakers Have Started On Election Tour

London, England.—The great liberal drive for victory in the general election has started and 4,000 speakers preaching Rt. Hon. David Lloyd George's new unemployment removal scheme, will visit every nook and cranny in the country until every body knows it by heart.

As far as is humanly possible every district will have at least one visit from one of the big guns who are planning to start at various points in England and Wales, and to make lightning tours of the kingdom, converging on Scotland before the disbanding of Parliament.

Rt. Hon. David Lloyd George, the party leader, will open his tour in Wales.

Fellowship For Alberta

Cambridge, Mass.—Vernon Elgin Way, of Edmonton, Alberta, has been awarded the Charles Elliot Norton fellowship in Greek studies for 1929-30; it was announced at Harvard University. Way is a student at the Harvard graduate school of arts and sciences. The fellowship is for a year's study at the United States school of classical studies at Athens.

Missing For Three Months

Boston.—The Boston Herald says that 17-year-old Edmund Morris Jr., son of Edward W. Morris, Jr., wealthy Brookline resident, has been strangely missing from home since the night of January 4. A nationwide search by private detectives and police has been unsuccessful.

Two Killed In Plane Accident

Pilot and Passenger Lose Lives in Crash At Khedive, Saak.

Khedive, Saak.—To the sudden panic and anguish experienced by the swooping airmen and spectators of the seaplane in which he had sought the thrill of a first flight, is attributed the tragic crash here that cost the lives of Flying Instructor Roland Ford, of Regina, and John Sydoruk, a C.P.R. section foreman. Trapped in the enclosed cockpit of a dual-control Velle Monocoupe when the right wing of the plane, in which the two were flying, could a telephone wire, they were plunged downward with terrific force, and death either came instantly from concussion, or else they perished in the flames that immediately enveloped the crumpled machine.

The coroner's jury which investigated the tragedy came to the merciful conclusion that the victims were either dead or stunned and unconscious when they crashed. On the other hand, a Regina pilot who visited the scene and examined the wreckage of the plane in the light of all the circumstances, expresses the opinion that the crash was not sufficient of itself to cause the death of Ford and his passenger. He believes the two fought valiantly to escape from the blazing cabin before succumbing to the flames.

Scholarships For Research Workers

Students Of Outstanding Merit Have Been Selected For Awards

Ottawa.—Sixty of the applicants for post-graduate scholarships from the national research council of Canada have been granted either fellowships, studentships or bursaries for 1929 according to announcement made by the scholarships committee of the council. Out of the hundred applications before the council those of outstanding merit have been selected for the awards.

The list contains names throughout the breadth of the Dominion and allows for the expenditure of approximately \$50,000 for research which will be followed at various Canadian universities.

The purpose of the annual endowment of individuals with money granted by the national research council is to assist in building up in Canada a corps of thoroughly trained research workers capable of taking and directing scientific research on Canadian industrial problems or in connection with the development of Canada's natural resources.

The scholarships go to university graduates who are following some line of scientific investigation at university laboratories.

Making Tour Of Canada

League Of Nations Officer To Help In Membership Drive

Ottawa, Ont.—One of the highest officers of the League of Nations is a visitor in Canada. M. Joseph Avenol, Deputy Secretary General of the League, arrived in Vancouver from the Orient, and will visit Canada from the Pacific to the Atlantic, speaking on behalf of world peace and the work accomplished by the League as a result of his visit.

The Deputy Secretary-General will be a speaker on behalf of the big coast-to-coast drive for new membership to be launched April 16 by the League of Nations society in Canada. The present membership of the League is 23,000 and it is expected this will be well over 50,000 on the completion of the membership campaign.

Valued At Four Billion

New York, N.Y.—Diamonds owned in the United States are valued at \$4,000,000,000, the Continental Insurance Company has found. The per capita value of the country's holdings is greater than that of any other country. Few of the world's large diamonds are owned in this country.

Will Operate New Hotel

Toronto.—The Canadian Pacific Railway has agreed to operate the hotel to be erected in Guelph by Montreal lands itself to pictorial art. It is used by the Tourist Department of the Canadian Pacific Railway to lure the fisherman from his home, as although it does not demonstrate the pictorial possibilities, it does show something of the great natural beauty which every true angler appreciates equally with opportunity to demonstrate his art.

CANADIANS IN U.S. ARE SUBJECT TO DEPORTATION

Washington.—Thousands of Canadians are certain to be affected by the "absolute deportation" law, which passed near the close of Congress. Walter W. Husband, assistant secretary of Labor, one time commissioner-general of immigration, said the illegal residents are divided into three groups.

In the first group are those who entered this country without payment of the head tax of \$8 between 1917 and 1921, when the first immigration exclusion laws went into effect. This group is the least seriously affected. They cannot be deported as the statute of limitations has outlawed their offences. Steps are being taken in congress to validate their residence.

In the second group are those who

DESIGNS IMPORTANT POST

Lord Lovat, who has now almost given up public life, has resigned from the chairmanship of the overseas settlement committee owing to ill-health. He resigned as parliamentary under-secretary for Dominion affairs last December.

Express Confidence In Bracken Government

Labour Resolution Defeated 31 to 19 In Manitoba House

Winnipeg.—By a vote of 31 to 19, confidence in the Bracken Government was expressed by the Manitoba legislature, when a Labour resolution demanding an investigation of the Seven Sisters Falls Power Agreement by a committee of the house was defeated.

The issue had been regarded by the premier as one of want of confidence. John Queen, Labour leader, was the sponsor of the resolution.

In the division the government had the support of the Liberal members, including H. A. Robson, Liberal leader. Conservative, Independent and Labor members supported the Queen resolution.

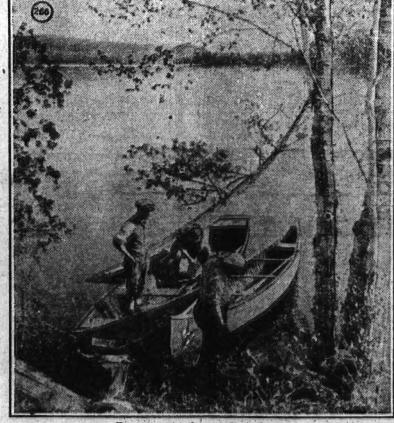

When the session opened Premier Bracken and the leaders of the various groups paid tribute to the late Sir Hugh John MacDonald. By a standing vote, a resolution of sympathy was unanimously adopted.

Will Open Immigration Department In Regina

Permanent Headquarters To Be Established On May 1

Regina.—Permanent headquarters of the Department of Immigration for Southern Saskatchewan will be established here May 1, according to an announcement made by Geo. Todd, of the Immigration Department, who will be in charge of the new office.

Mr. Todd explained that there had been a growing need during the past year for an office in Regina, and that temporary accommodation had been secured in the Veteran Block during the last month. The new Regina office of the department will be situated in the Darkie Block, and will be in a similar position to those already established at Saskatoon, Calgary and Edmonton.

Laurentian Spring

The photograph reproduced above is a purely amateur study, but it is a fine illustration of how the great Laurentian district north of Montreal lends itself to pictorial art. It is used by the Tourist Department of the Canadian Pacific Railway to lure the fisherman from his home, as although it does not demonstrate the pictorial possibilities, it does show something of the great natural beauty which every true angler appreciates equally with opportunity to demonstrate his art.

Serious Epidemic Of Meningitis In China

Steamship Officials Take Steps To Prevent Spread Of Disease To Other Countries

Shanghai, China.—The meningitis epidemic having reached serious proportions here officials of steamship lines have decided not to accept steerage passengers from Shanghai bound for Canada and the United States. The action was taken in an attempt to prevent the possible spread of disease to these countries.

Owing to lack of statistics accurate information of the number of cases was lacking but it was known to be large. In the Shanghai area authorities estimated, there were one thousand cases being treated. Many deaths have occurred within a radius of one hundred miles of Shanghai.

Mr. King stated that the "I'm Alone" case had been the subject of correspondence between Ottawa and Washington for the past week. He said that the correspondence in this case would be brought down in due course.

Washington.—Word from Ottawa that the Canadian Government had decided to make the sinking of the Canadian run-rum "I'm Alone" subject of formal representation to the American Government was interpreted by official and diplomatic circles here as a move on the part of the Canadians to bring the anti-smuggling treaty up for formal discussion.

There has been an indication during the past few days in some quarters in Washington to believe that the Canadians might drop the case, hence no move in the way of an apology or steps to straighten out the tangle were made by the American authorities.

It is generally believed the Canadians are more interested in the principles of the case with regard to the treaty than they are with the actual sinking.

Pacific Yields Clue To Aviation Tragedy

Parts Of Airplane Found May Solve Ocean Mystery

San Francisco, Cal.—Parts of an airplane, twisted into weird shapes and water soaked, were brought here to determine whether they might aid in the solution of a tragic ocean mystery, either during the Duley flight to Honolulu or by army and navy personnel on the return.

Most of the evidence indicated they were parts of a United States government craft which disappeared in 1922 or 1923 during a flight off the Pacific coast, attendants at Mills Field, the municipal airport, said after a brief examination.

While admitting that to follow the order-in-council of the Federal cabinet, Manitoba must be placed in a position of equality with other provinces and must not be discriminated against, Mr. McMaster urged that "the Dominion must not be placed in a worse position than she would have been had Manitoba kept her natural resources from the first and administered them herself.

The subsidy system, he declared, was vicious. He urged that the commission be clair in increasing such payments. It was a bad principle for one government to collect taxes and another to use them for revenue. The practice should be kept in as narrow confines as possible, curtailed as far as was practicable, in justice to all.

"Manitoba is not a poor sister," he continued. "It is treated with leniency that will demand similar treatment from east to west. One claim will lead to another, it may become—and I see a real danger here—an endless ring of demands upon the Federal Government."

One of two things would be the result of such a situation. Either Dominion service would have to be curtailed or else taxation would have to be increased. The one avenue open to the Government of Canada to increase revenue was through its customs duty, he said. And this would touch the pocket of the consumer.

Mr. Justice Turgeon, chairman of the commission, asked Mr. McMaster what he would suggest in place of subsidies which he was condemning. Mr. McMaster replied that he would rather see a lump sum paid to Manitoba, if compensation were necessary, than have an increase in allowances. But that was his own opinion, he added. He had no instructions to offer any such suggestion.

Mr. Justice Turgeon pointed out that the subsidy system was provided for in the Confederation pact, and was meant to take the place of surrendered avenues of revenue through customs duty.

Uruguayan Fliers Safe

Bogota, Colombia.—Two weary aviators for whom all hope had been abandoned have turned up at Tumaco, southernmost port of Colombia, after a two days' voyage in a small boat along the coasts of Ecuador and Colombia. The Uruguayan fliers declared they had been forced down in Northern Ecuador and their plane destroyed.

Aviation Course By Mail

Boston.—Learning to fly, by mail, is now possible under a plan being carried out by the Massachusetts State Department of Education. Since the department's recent announcement that it would offer correspondence courses in aeronautics, more than 400 inquiries have been received from 23 states of the union, Canada and Haiti.

Bill Johnson died in Nova Scotia last week.

If women had any sense, there would be more bachelors.
